Blogger Spirit

Introduction:

Blogger Spirit is a web-based application where a person can easily write his or her blog. For each post 10 points will be reduced. Users can also transfer point from one account to another. User can also see his transferred points and received points. Users can also give feedback and also see other feedbacks

Technologies:

We had use **Python (Django)** to develop this system because python is a very secure language and easy to use. For designing, we had use **HTML, CSS, JavaScript, Bootstrap.** We had use **Xampp Control Panel** as a main server because it is a locally created virtual server in which we can easily create **Apache MySQL** server for our project. Moreover, Xampp is free of cost and easy to use. We had also use **mongo dB** database to store users' feedbacks. Besides, we had use git version control to track our workflow neat and clearly.

Trigger Commands:

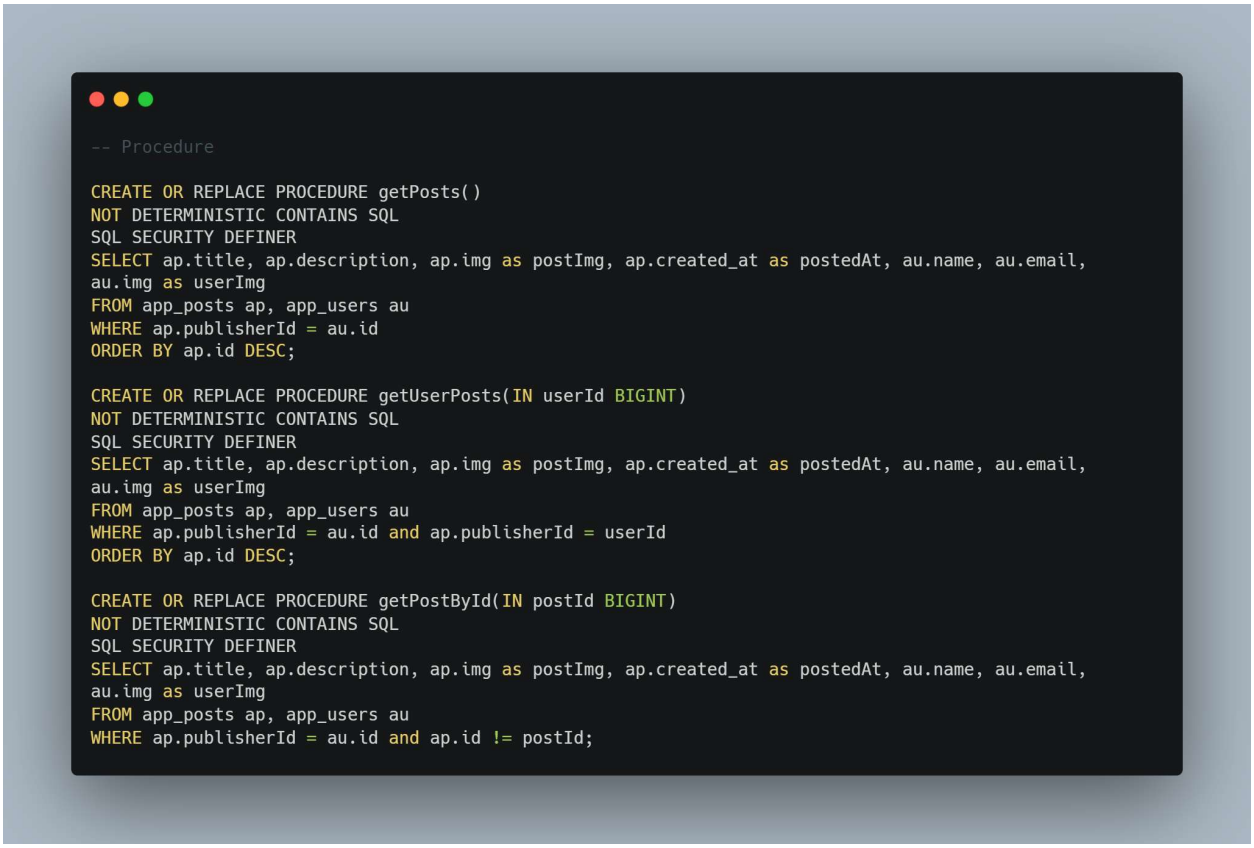
```
-- insert into post table
-- 1
DELIMITER $$
CREATE OR REPLACE TRIGGER check_user_points_while_post
    BEFORE
        INSERT ON app_posts
    FOR EACH ROW
    BEGIN
        DECLARE points INT;
        SELECT point INTO points FROM app_users WHERE id = NEW.publisherId;
        IF points < 10 THEN
            SIGNAL SQLSTATE '45000' SET MESSAGE_TEXT = 'You don''t have enough point to post';
        END IF;
    END $$
DELIMITER ;

-- 2
DELIMITER $$
CREATE OR REPLACE TRIGGER update_user_point_after_post
    AFTER
        INSERT ON app_posts
    FOR EACH ROW BEGIN
        UPDATE app_users SET point = point - 10 WHERE id = NEW.publisherId;
    END $$
DELIMITER ;

-- insert into transfer point table
DELIMITER $$
CREATE OR REPLACE TRIGGER check_user_points_while_transferring
    BEFORE
        INSERT ON app_transfer_point
    FOR EACH ROW
    BEGIN
        DECLARE points INT;
        SELECT point INTO points FROM app_users WHERE email = NEW.senderEmail;
        IF points < NEW.point THEN
            SIGNAL SQLSTATE '45000' SET MESSAGE_TEXT = 'You don''t have enough point to post';
        END IF;
    END $$
DELIMITER ;
```

Fig: Trigger Commands

Procedure Commands:



```
-- Procedure

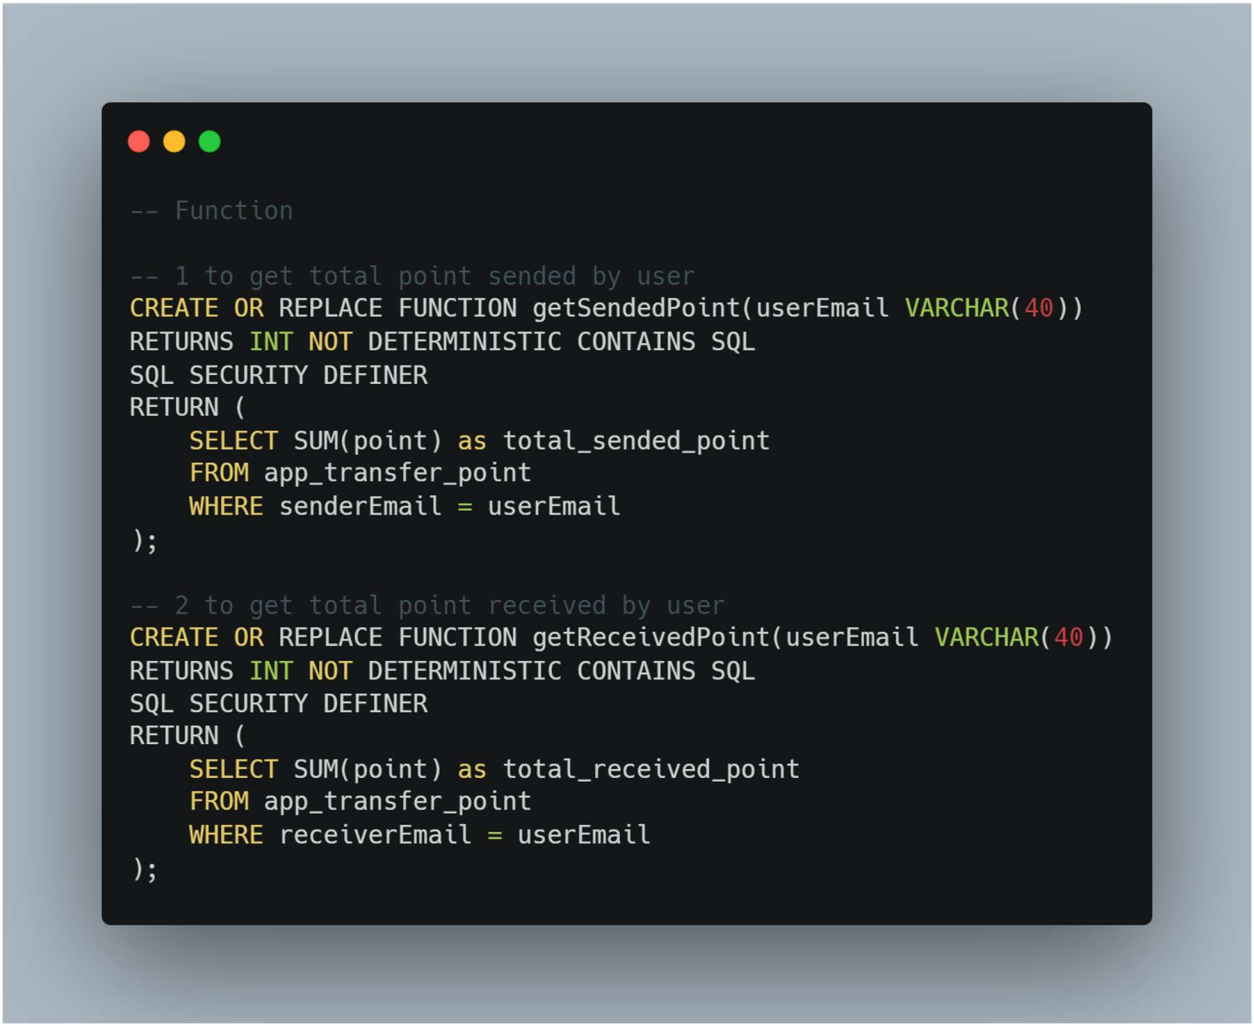
CREATE OR REPLACE PROCEDURE getPosts()
NOT DETERMINISTIC CONTAINS SQL
SQL SECURITY DEFINER
SELECT ap.title, ap.description, ap.img as postImg, ap.created_at as postedAt, au.name, au.email,
au.img as userImg
FROM app_posts ap, app_users au
WHERE ap.publisherId = au.id
ORDER BY ap.id DESC;

CREATE OR REPLACE PROCEDURE getUserPosts(IN userId BIGINT)
NOT DETERMINISTIC CONTAINS SQL
SQL SECURITY DEFINER
SELECT ap.title, ap.description, ap.img as postImg, ap.created_at as postedAt, au.name, au.email,
au.img as userImg
FROM app_posts ap, app_users au
WHERE ap.publisherId = au.id and ap.publisherId = userId
ORDER BY ap.id DESC;

CREATE OR REPLACE PROCEDURE getPostById(IN postId BIGINT)
NOT DETERMINISTIC CONTAINS SQL
SQL SECURITY DEFINER
SELECT ap.title, ap.description, ap.img as postImg, ap.created_at as postedAt, au.name, au.email,
au.img as userImg
FROM app_posts ap, app_users au
WHERE ap.publisherId = au.id and ap.id != postId;
```

Fig: Procedure Commands

Functions Commands:



```sql
-- Function

-- 1 to get total point sended by user
CREATE OR REPLACE FUNCTION getSendedPoint(userEmail VARCHAR(40))
RETURNS INT NOT DETERMINISTIC CONTAINS SQL
SQL SECURITY DEFINER
RETURN (
    SELECT SUM(point) as total_sended_point
    FROM app_transfer_point
    WHERE senderEmail = userEmail
);

-- 2 to get total point received by user
CREATE OR REPLACE FUNCTION getReceivedPoint(userEmail VARCHAR(40))
RETURNS INT NOT DETERMINISTIC CONTAINS SQL
SQL SECURITY DEFINER
RETURN (
    SELECT SUM(point) as total_received_point
    FROM app_transfer_point
    WHERE receiverEmail = userEmail
);
```

New year, new hopes and newer beginnings- all of us ardently wait for the clock to strike 12 and usher in the new year. It's such a celebratory, positive time which keeps everyone in good spirits! And this New Year is no different! We are sure that 2020 has been an emotionally testing and turbulent time, thanks to the pandemic, a lot of us are keeping our fingers crossed for 2023! There have been many learnings we got from the year-from safeguarding our health, being supportive of each other to spreading kindness and now, it's time to make some wishes anew and spread the holiday cheer.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Privacy Policy for Blogger Spirit
At Blogger Spirit, accessible from http://127.0.0.1:8000/, one of our main priorities is the privacy of our visitors. This Privacy Policy document contains types of information that is collected and recorded by Blogger Spirit and how we use it.
If you have additional questions or require more information about our Privacy Policy, do not hesitate to contact us.
This Privacy Policy applies only to our online activities and is valid for visitors to our website with regards to the information that they shared and/or collect in Blogger Spirit. This policy is not applicable to any information collected offline or via channels other than this website. Our Privacy Policy was created with the help of the Free Privacy Policy Generator.
Consent
By using our website, you hereby consent to our Privacy Policy and agree to its terms.
Information we collect
The personal information that you are asked to provide, and the reasons why you are asked to provide it, will be made clear to you at the point we ask you to provide your personal information.
If you contact us directly, we may receive additional information about you such as your name, email address, phone number, the contents of the message and/or attachments you may send us, and any other information you may choose to provide.
When you register for an Account, we may ask for your contact information, including items such as name, company name, address, email address, and telephone number.
How we use your information
We use the information we collect in various ways, including to:
Provide, operate, and maintain our website
Improve, personalize, and expand our website
Understand and analyze how you use our website
Develop new products, services, features, and functionality
Communicate with you, either directly or through one of our partners, including for customer service, to provide you with updates and other information relating to the website, and for marketing and promotional purposes
Send you emails
Find and prevent fraud
Log Files
Blogger Spirit follows a standard procedure of using log files. These files log visitors when they visit websites. All hosting companies do this and a part of hosting services' analytics. The information collected by log files include internet protocol (IP) addresses, browser type, Internet Service Provider (ISP), date and time stamp, referring/exit pages, and possibly the number of clicks. These are not linked to any information that is personally identifiable. The purpose of the information is for analyzing trends, administering the site, tracking users' movement on the website, and gathering demographic information.
Advertising Partners Privacy Policies
You may consult this list to find the Privacy Policy for each of the advertising partners of Blogger Spirit.
Third-party ad servers or ad networks uses technologies like cookies, JavaScript, or Web Beacons that are used in their respective advertisements and links that appear on Blogger
